IN AND AROUND ARRAS AND BETHUNE

* Arras in a few words :

The beautiful town of Arras is the capital of the Pas-de-Calais with a population of 43,000. The two central squares were built over 800 years ago to house the vast markets that traded here bringing prosperity to the town. These gigantic squares are surrounded with numerous houses and shops built of white stone and brick in the 17th and 18th centuries and replicated after their destruction in the WWI. There are considered today as the jewels in the Arras' crown.

* Bethune in a few words :

Béthune town square is a stunning example of Art Deco architecture, although the central belfry leaves no doubt that you are in the North of France. The massive Town Hall was rebuilt in 1920, the stonework on its façade depicting the town's events and triumphs, such as "Croix de Guerre" and "Legion d'honneur" medals, which were awarded to the town and its citizens for the courage and strength displayed in the Great War.
